This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 600.0 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain, or the condition of a carrier or container for the storage or transportation of grain; or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or the weighing service was performed. The certificate shall not be considered representative of the lot if the grain is transhipped or is otherwise transferred from the identified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not cancelled by a superseding certificate, it is renewable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.

WARNING: Any person who shall knowingly falsely make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions in the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties.

The conduct of all services and the licensing of personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.

a. **Form FGIS-960, Official Grain Weight Certificate (Exhibit B).** The Form FGIS-960 is a white, general purpose official grain weight certificate with four carbon copies. It may be used for all inbound, outbound, local transfers, grain dust, grain screenings, and export lots of grain weighed under Class X requirements. Check off boxes have been provided for the type of movement section, type of carrier section, and kind of grain section to speed up the preparation process.

This certificate may also be used when combining lots (e.g., certification of several barges on one certificate or certification of a unit train on one certificate). Refer to section 2.4. For mandatory statements required by the regulations, see Table 1, page 2-26.

 The conduct of all services and the licensing of personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.

- c. **Form FGIS-960-10, Official Grain Weight Certificate (Exhibit D).** The Form FGIS-960-10 is a continuous run NCR paper certificate with four copies using accordion folded paper, with perforated tear strips on either side of the certificate. GIPSA provides these certificates to elevators with automated weighing systems having tractor fed impact printers for weighing and certifying barge shipments. The certificates self-feed through the printers, decreasing the time official personnel have to monitor the printers. For mandatory statements required by the regulations, see Table 1, page 2-26.

SUPERVISING AGENCY _____

THE CLASS Y GRAIN WEIGHT INDICATED ON THIS CERTIFICATE WAS DETERMINED BY PERSONS EMPLOYED BY OR AT THE IDENTIFIED FACILITY WHO ARE OCCASIONALLY SUPERVISED BY THE SUPERVISING AGENCY. THE SUPERVISING AGENCY DID NOT DETERMINE THE WEIGHT OF THE GRAIN IDENTIFIED ON THIS CERTIFICATE. This certificate is issued under the authority of the U.S. Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 800.0 et seq.) to show the weight of grain at the time and place of weighing. It may not represent the weight at a different date or place. The statements on the certificate are considered true at the time and place the supervision of weighing service was performed. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal law.

WARNING: Any person who shall knowingly falsify, make, issue, alter, forge, or counterfeit this certificate, or participate in any such actions, or otherwise violate provisions of the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws, is subject to criminal, civil, and administrative penalties. This certificate meets the supervision of weighing requirements of Section 3(v), 7A(c) and 7A(e) of the U.S. Grain Standards Act; it does NOT meet the requirements for official weighing under Section 5 of the U.S. Grain Standards Act. The conduct of all services and the licensing of personnel under the regulations governing such services shall be accomplished without discrimination as to race, color, religion, sex, age, national origin, or handicap.

- e. **Form FGIS-964, Supervision of Grain Weight Certificate (Exhibit G).** The Supervision of Grain Weight Certificate (Form FGIS-964) is a yellow certificate, used for certifying all movements covered under an applicant's request for Class Y weighing service. The facility authorized to weigh keeps the original scale tape or scale tickets for all Class Y weighing completed. The supervising field office or official may request that facilities surrender all tapes and file copies of issued certificates for filing. Elevator weighers issue a Supervision of Grain Weight Certificate (Form FGIS-964) for each carrier weighed under the agreement with the supervising agency. See the Class Y section of Chapter 1, section 1.6 of the Weighing Handbook for procedures. Overprint the words CLASS Y WEIGHING on all parts in 30 percent solid black type with 133 line screen.

- g. **Form FGIS-993, Commodity Inspection (& Weighing) Certificate** (Exhibit I). Use this certificate when bulk weighing export commodities covered by the Agricultural Marketing Act. As this is a multi-purpose certificate, type the title "Commodity Weight Certificate" in the space provided below "Commodity Inspection Certificate." Form FGIS-993 may also be used for domestic certification for bulk weighing or checkweighing. See Chapter 6 of the Processed Commodities Handbook for additional procedures for certifying checkweighing results on this certificate.

- 1 Enter the title, "COMMODITY WEIGHT CERTIFICATE, BEAN WEIGHT CERTIFICATE, OR RICE WEIGHT CERTIFICATE." On the GIPSA certificate-printing package, use the subtitle field to enter this data.
- 2 Enter the date the certificate is issued.
- 3 Enter the name of the city and state of the field office or cooperator's office issuing the certificate.
- 4 Leave blank.
- 5 Enter the applicant's name, city, and state.
- 6 Enter the location where the product was inspected (e.g., plant name, city, and state) or "Same" as in 5.
- 7 Enter the identification of the carrier and type of commodity.
- 8 Enter the type of carrier (vessel, barge, boxcar, hopper car, container, or truck) and the net weight of the carrier. Use the same unit of mass (i.e., pounds or kilograms) that was used to calibrate the scale equipment.
- 9a Enter under the heading "Remarks" the type of movement (Export/In/Out) and stowage (as applicable). These are minimum requirements. Other information may be supplied as requested.
- 9b Upon request, show times started and finished, and gross, tare, and net weights. This information may be stamped directly on the certificate by

the scale or typed in later. When the official results are complete, enter in the remarks, "END OF RESULTS."

10

Enter the name or signature (or both) of the person who issued the certificate and, if affixed by an authorized agent, the word "By" and the agent's initials.

(1) Commodities offered for weighing and certified as a single lot may be divided into two or more weight certificates using Form FGIS-993, Commodity Inspection Certificate. The applicant may have as many divided certificates (Form FGIS-993's) as necessary, provided the total net weight for the Form FGIS-993's equals the total net weight shown on the surrendered original Form FGIS-993's issued as a single lot.

(2) Applicant Requirements

The applicant may exchange the certificate for two or more divided-lot certificates provided that:

- (a) The request is in writing;
- (b) The applicant is the one who requested the original weighing;
- (c) The request is made to the cooperator or the field office that issued the outstanding certificate;
- (d) The request is made within 5 business days of the outstanding certificate's date;
- (e) The request is made before the lot's identity is lost;
- (f) The cooperator or the field office has custody of the original weighing certificate (original and all copies); and
- (g) The request provides the name and complete address of each consignee and the quantity to be shown on each divided-lot certificate.

(3) Issuing Office Requirements

Show the following information on all official divided commodity weight certificates:

- (a) Identical information that was shown on the official commodity weight certificate, except show the net divided weights as the applicant requested.
- (b) The same statements that were on the original certificate.
- (c) The same serial number as shown on the superseded certificate, except that each divided-lot certificate has added a serially numbered suffix, e.g., 1764-1, 1764-2, 1764-3, etc.

Show on the original official commodity weight certificate,
